04 SENSA SPACES. NATURAL SOPHISTICATION

WE ARE STONE. A
FAMILY BUSINESS
WITH OVER 40 YEARS
OF EXPERIENCE IN
THE NATURAL STONE
INDUSTRY, IN WHICH
WE HAVE DEEP ROOTS.

In 1973, Cosentino was a small marble company with a modest factory in Macael, Almería. A town of 5,000 inhabitants, surrounded by quarries, desert landscapes and sunshine.

Today, the company employs more than 6,000 people and operates on every continent, setting the standard in the production of innovative surfaces for architecture and design. A family business with over 40 years of experience in the natural stone industry, in which it has deep roots.

Cosentino currently has facilities to meet the demands of the natural stone market, including a 10,000 m² showroom and a stock of more than 22,000 slabs from all over the world at its headquarters in Almería. In addition, the company opened a state-of-the-art factory in Vitória in 2022, covering over 65,000 m², and is recognised as one of Brazil's top five exporters.

Our constant drive to push the boundaries of the impossible has brought us to this point, enabling us to offer a wide range of exclusive and limited materials created by nature. Unique, one-of-a-kind pieces that embody years of expertise and dedicated research.

OUR FACILITIES

COSENTINO MALL. HQ, ALMERÍA (SPAIN)

The natural stone warehouse at Cosentino's headquarters is located in the Almería Industrial Park. A 10,000 m² showroom with over 22,000 slabs in 350 different colours, in which the main focus is on marble, but the range also includes granite and quartzites from our Sensa by Cosentino brand. Most of the slabs come from Brazil, where Cosentino

has its own quarries. These are shipped to our headquarters in Cantoria for worldwide distribution.

The warehouse offers marble from various regions and countries, including our quarries in Brazil, Turkey, Italy, India and Mexico, as well as regions across Spain such as Alicante, Murcia, Granada and Bilbao.

COSENTINO LATINA. VITÓRIA (BRAZIL).

Cosentino Latina Vitória is the specialised plant that has created Sensa by Cosentino, the exclusive range of granites and quartzites with special stain-resistant protection. With facilities covering more than 65,000 m²,

Cosentino Latina Vitória has a daily production capacity of over 2,500 m² of Sensa by Cosentino slabs, and is currently the largest exporter of natural stone in Brazil.

RECLAIMING THE NATURAL

Used for centuries in all types of construction projects, natural stone can be found in monuments and buildings that have stood the test of time and still stand today. Stone is a reliable choice for durability, efficiency and sustainability.

That is why we have curated a selection of the world's most exclusive natural stones – created by the greatest producer of all time: the Earth.

Versatility

High performance for both interior and exterior applications, natural stone can be used for flooring, worktops, facades and cladding. It provides an efficient solution for any project.

Aesthetic variety

A wide range of colours, from the lightest to the darkest, including the most unexpected colour combinations, and all types of textures – polished, rustic, rough and more – allow creativity to flourish.

Timeless pieces

Designed to retain their appearance for years to come, reducing maintenance costs and even allowing reuse at the end of their life cycle.

Refined and inimitable appearance

Unrepeatable and distinctive designs tailored to the most unique projects.

100% natural

Facilitating the architectural integration of the material with its surroundings.

HONOURING OUR ORIGINS
BY RECLAIMING THE
BENEFITS THAT THE
NATURAL STONE HAS
ALWAYS OFFERED US

HOW CAN WE HELP YOU WITH YOUR NATURAL STONE PROJECT?

Travel mission

Our team of experts travels the world in search of the most exclusive stones, capable of evoking emotions through their composition, dimensions and textures.

Advice

At our facilities, we advise our clients on material selection, helping them to choose the most appropriate and efficient options for their projects.

On-site support

We are with you every step of the way, from start to finish, being part of the process to ensure a result that exceeds your expectations.

Quality and commitment

Values are at the heart of everything we do.

VISITS AND VIRTUAL TOUR: EXPERIENCE NATURAL STONE LIKE NEVER BEFORE.

Our materials showroom at Cosentino HQ is open for both in-person and virtual visits. In-person visits allow clients to select the materials for their projects on site. This allows us to focus on each visit individually, tailoring each visit to the specific needs of each project and ensuring that the desired outcome is achieved.

With our Virtual Tour, we are able to offer the same service on a global scale, thanks to a team of professionals ready to guide clients through virtual visits, regardless of their location. Wherever they may be, we bring the natural stone warehouse to our clients, allowing them to experience it live from the comfort of their studios, offering personalised service in each instance and live access to the stock.

SENSA PROTECTED
NATURAL STONE

TIMELESS
DESIGN.
TIMELESS
PEACE
OF MIND.

Sensa is Cosentino's premium natural stone range, combining the natural beauty of carefully selected granites and quartzites from quarries around the world with an exclusive stain-resistant treatment that works at the molecular level to ensure minimal maintenance.

FROM THE QUARRY TO THE KITCHEN

GRANITES AND QUARTZITES FROM AROUND THE WORLD

We source and transform natural stone through an extraordinary process that brings the authentic beauty of nature directly into the home, enhancing its appeal.

NATURAL IS TRENDY

We are going back to our roots with a trend that celebrates the natural. Bringing an organic and authentic touch to any space.

PROTECTED NATURAL STONE

EXCLUSIVE STAIN-RESISTANT TREATMENT

A unique treatment that works at the molecular level on Sensa surfaces to prevent the penetration of liquids that cause acidic, oily or pigmented stains.

LOW MAINTENANCE AND 15-YEAR WARRANTY

With this innovative stain-resistant technology, we offer a natural stone surface of high aesthetic value that requires minimal care and maintenance. It also comes with a 15-year warranty.

A NEUTRAL SPACE WITH JAPANDI AESTHETICS

Emilia Jędrejek
Warsaw, Poland

Draped in an elegant beige, this kitchen exudes tranquillity, with neutral tones enhancing the natural light. The understated kitchen units are complemented by the wow factor of the Sensa Taj Mahal quartzite finish, which is used on the worktops, front and island. The luxurious finish of this quartzite is protected by a stain-resistant coating to stand the test of time.

REVAMPED CLASSIC STYLE

Michael Cardinale, Axon Homes
Perth, Australia

A reinterpretation of the style of old Europe, the design of this house uses the beauty of natural stone as its main feature. In the kitchen island, with its monolithic design, Sensa White Macaubas blends perfectly with the other finishes, such as walnut veneer, terracotta accessories and olive green Japanese tiles. This Brazilian granite is also featured in the fireplace, the living room partition, and smaller accents like the bedside tables in the bedrooms.

ODE TO STONE

Kitchens by Paul,
Paul Badran
Stockholm. Sweden

The combination of walnut, glass and Sensa Vancouver makes designer Paul Badran's kitchen truly unique. Every front of the kitchen, including drawers and doors, is clad in this Brazilian quartzite, which is also used for the internal drawer dividers. The design of the whole set is spectacular, enhancing the kitchen and creating an exciting atmosphere.

A KITCHEN THAT DOUBLES AS A LIVING SPACE

2nd Edition
Singapore

The strength and elegance of Sensa Black Beauty granite lend a distinctive character to this island, which serves as a social hub between the kitchen and living room. A sculptural centrepiece, it highlights the cocktail bar area and adds a sense of robustness to this luxury apartment in an exclusive residential development designed by award-winning architect Antonio Citterio.

MINIMALIST TABLE WITH A GRAPHIC DESIGN

Laurent Mougoust and Cécile Chenais
France

The first piece of furniture designed by Laurent Mougoust's eponymous editor, in collaboration with his artistic director Cécile Chenais, is a sculptural table with a lot of character and a graphic design. Sensa Vancouver quartzite and Scalea Verde Guaco marble were the natural stones chosen for this stain-resistant coffee table.

A RESTAURANT THAT REVOLVES AROUND SENSORY EXPERIENCE

COX Co.
Kuala Lumpur. Malaysia

Suru Omakase is a local exclusive restaurant that seats only 15 guests. Clad in dark shades that lend it a sober and mysterious atmosphere, its sumptuous and organic textures stand out, as does the spectacular Sensa Black Beauty bar, which, with its Sensa Caresse finish, blends perfectly with the mysterious and welcoming atmosphere of the restaurant.

AN EXOTIC BATHROOM IN MADRID

Raúl Martins Studio
Madrid. Spain

The organic beauty of Sensa Sant Angelo granite, chosen for the kitchen worktops and bathroom washbasin, infuses the home of designer Raúl Martins with a touch of the exotic. The washbasin sits on a brass and steel vanity unit and is complemented by a mirror with a black lacquered frame and hand-painted wallpaper. The result is an arrangement with soul, not only for its beauty but also for the authenticity it exudes.

A SCULPTURAL AND MINIMALIST KITCHEN

Rowson Kitchens
New Plymouth. New Zealand

The sleek, avant-garde curved island in this kitchen adds character to a space designed for sharing. Sensa White Macaubas adds intensity with its colour and visual richness, while providing a durable, hard-wearing surface. The same stone was chosen for the countertops in the master bathroom and laundry room of this family home.

A MODERN AND TIMELESS HOME

Gärna Studio
Madrid, Spain

“Sensa is a ‘lifesaver’. As designers, we have a tendency to the purity of natural materials, and Sensa provides us with a technical solution to use them in places like kitchens and bathrooms without fear of staining,” assures Gärna Studio, the designers of this functional and characterful home. Two Sensa colours feature prominently here: White Macaubas in the kitchen and Taj Mahal in the bathroom, both applied to the worktops. The stone is complemented by bold elements such as wallpaper in the bathroom and large works of art in the kitchen.

URBAN ELEGANCE IN A PENTHOUSE

The Carpenter's Workshop
Singapore

Urban elegance at its best: this Singapore penthouse shines with its own light thanks to its mix of materials. The studio The Carpenter's Workshop chose Sensa Black Beauty for its unique texture and veining, making the kitchen island a focal point in the penthouse. The bevelled profile applied to the natural stone creates a sculptural totem and a unique meeting place. The same stone is used in the work area for the worktop and splashback and in the bedroom.

SCANDINAVIAN DESIGN AND ARCHITECTURE

Stephanie Jo Ottavio,
Gianpietro Ottavio
from Japandi Estate
Brighton, Australia

The Japandi style is a perfect blend of Japanese Zen harmony and Scandinavian warmth, and that is exactly what this Australian home embodies. Sensa Taj Mahal is particularly prominent here, adorning the kitchen worktop and island, as well as the bathrooms and dressing room. "A fundamental characteristic of Japandi is consistency. By using Sensa Taj Mahal throughout the house, we were able to capture this," say the designers.

Sensa **Taj Mahal**

A UNIQUE DESIGN BUILT TO LAST

CRÜ
Barcelona. Spain

The origins of the Muralla project can be traced back to the 2022 Home Fair in Warsaw, where Grynasz Studio designed an all-encompassing exhibition space for Cosentino. The base of the Muralla table is made of solid oak, while the top is made of carefully selected stone slabs or Cosentino finishes. In this case, Sensa Vancouver was chosen to add a touch of elegance to the enduring design.

VANCOUVER

CONTEMPORARY LUXURY FOR A HISTORIC PALACE

Santos, 'Reflejo del tiempo'
(Reflection of Time)
at Casa Decor 2024
Madrid, Spain

Santos' design proposal reimagined the most iconic features of the palace, which was the venue for Casa Decor 2024, an event where Spain's top decorators showcase their proposals by renovating a historic building in Madrid. They achieved this by using contemporary elements and fine materials such as oak and Sensa Taj Mahal quartzite, used in the worktops and a bespoke sink.

REFINED DESIGN WITH A SEVILLIAN TWIST

Juka Interiorismo
Madrid, Spain

Called 'Entre dos aguas' (Between two waters), after the popular song by flamenco guitarist Paco de Lucía, Juka Interiorismo's project at Casa Decor 2024 recreates a living room designed to "listen to music, turn on creativity and stimulate imagination," as well as the corridor leading to it. The project embraces raw materials: copper accents and geometric shapes are paired with Sensa and Dekton by Cosentino. Specifically, Sensa Nahoa Brazilian quartzite is used to adorn the doorway and window frames and the top of the side table.

Table, stool and cladding
Sensa Nahoa

A black and white photograph of a quarry. In the foreground, a large, flat stone slab is visible. In the background, a high wall of stacked stone blocks rises against a dark sky. Several smaller stone blocks are scattered on the ground in the middle ground. The text "MEANINGFUL DESIGN TO INSPIRE PEOPLE'S LIVES" is overlaid in the center in a white, sans-serif font.
